Instructor feedback:

<p>Instructor 1: Mr. Ari's performance in the English Conversation class has been commendable, particularly in terms of his pronunciation and grammatical skills. He has a solid foundation that allows him to communicate clearly and accurately. However, it would be great to take the initiative to speak more frequently without waiting to be asked. By doing so, he will gain confidence and further enhance his conversational abilities. Keep participating actively, and he will continue to improve rapidly. Instructor 2: Ari is an active class participant, although he occasionally hesitates to join larger group discussions. However, he is always willing to engage when encouraged. He generally speaks confidently, but expanding his vocabulary and improving his grammar would further enhance his speaking abilities. This can be achieved by increasing his exposure to English through various sources such as online articles, podcasts, music, movies, and TV. Additionally, practicing speaking with partners will further contribute to his improvement.</p>
